Priyanshu Nagiya

Jabalpur, Madhya Pradesh, India | 9243174393 | nagiyapriyanshu493@gmail.com | LinkedIn | GitHub

Profile

Aspiring Machine Learning Engineer with strong foundations in Python, data analysis, and machine learning algorithms. Hands-on experience in building and deploying ML models, data preprocessing, and AI-based solutions. Eager to contribute to impactful projects in a collaborative environment.

Education

Madhav Institute of Technology & Science — Gwalior, M.P.
Bachelor of Technology (B.Tech) — *Sep 2023 – Oct 2027*

Central Academy Sr Secondary School — Jabalpur, M.P.
Higher Secondary Certificate (Class XII) — *Apr 2021 – Mar 2023*

Technical Skills

Programming Languages: Python, C++, Java
Machine Learning: Supervised & Unsupervised Learning, Feature Engineering, Model Evaluation
Libraries & Frameworks: NumPy, Pandas, Scikit-learn, TensorFlow, OpenCV
Data Handling: Data Cleaning, Data Visualization, SQL
Tools & Platforms: Git, GitHub, Jupyter Notebook, VS Code

Internship Experience

Machine Learning Intern — Jan 2025 – Mar 2025
Aifico — *Gwalior, M.P.*

- Improved system reliability by **15%** by designing and implementing ML-based financial analysis pipelines.
- Performed end-to-end data preprocessing, feature selection, and model validation to optimize model performance.
- Collaborated cross-functionally with development teams to successfully deploy machine learning solutions into production.

Python Developer Intern — Mar 2025 – Apr 2025
CodeC — *Remote*

- Developed reusable Python modules for task automation and data processing, reducing manual effort.
- Optimized existing application workflows, improving overall performance and maintainability of the codebase.

Projects

Hand Recognition System | *Python, TensorFlow, OpenCV, Deep Learning*

- Built a real-time hand gesture recognition system achieving **90%+ accuracy** using deep learning and computer vision.
- Applied CNNs with OpenCV for real-time video stream processing and gesture classification.

Jarvis Virtual Assistant | *Python, Speech Recognition, NLP*

- Developed an AI-powered virtual assistant with speech recognition, NLP, and task automation capabilities.
- Integrated APIs for real-time web search, system control, and scheduling to enhance functionality.

Data Analytics Dashboard | *Python, Pandas, REST API, SQL*

- Designed interactive dashboards for visualizing key business metrics and trends from large datasets.
- Developed secure REST APIs and implemented SQL queries for efficient data ingestion and retrieval.

Certifications

Machine Learning – Certified in core ML concepts and model building techniques
Data Analytics – Certified in data analysis, visualization, and interpretation
Generative AI – Certified in generative AI fundamentals and applications
Web Development – JP Morgan Chase & Co. Virtual Experience Program
